## A NATURE SANCTUARY

Situated in the heart of Tuscany, Borgo Santo Pietro was once a healing stopover for medieval pilgrims. Today it continues to provide a sanctuary for modern souls, merging luxury hotel offerings and spa concept with a 'farm-to-plate' philosophy on a 300-acre estate. The estate encompasses a Michelin-starred restaurant, a holistic spa, organic skincare range Seed to Skin Tuscany and an extensive organic farm.

## ACCOMMODATION

A sumptuous feeling of home pervades the 800-year-old luxury farmhouse hotel, with its worn leather armchairs pulled up around open fires, fresh flower arrangements picked straight from the garden and weathered brick wine cellar lined with boutique labels.

Each of the boutique hotel's 22 suites & rooms conveys its signature luxury experience of exquisite furnishings and chandeliers, antique art, bespoke beds, well-appointed bathrooms and a propinquity with nature. Whether the choice be a classic suite in the main 12th century villa, an exclusive suite with garden, or a seclusive villa with pool, the ethereal experience is designed for 5 star gratification and service.

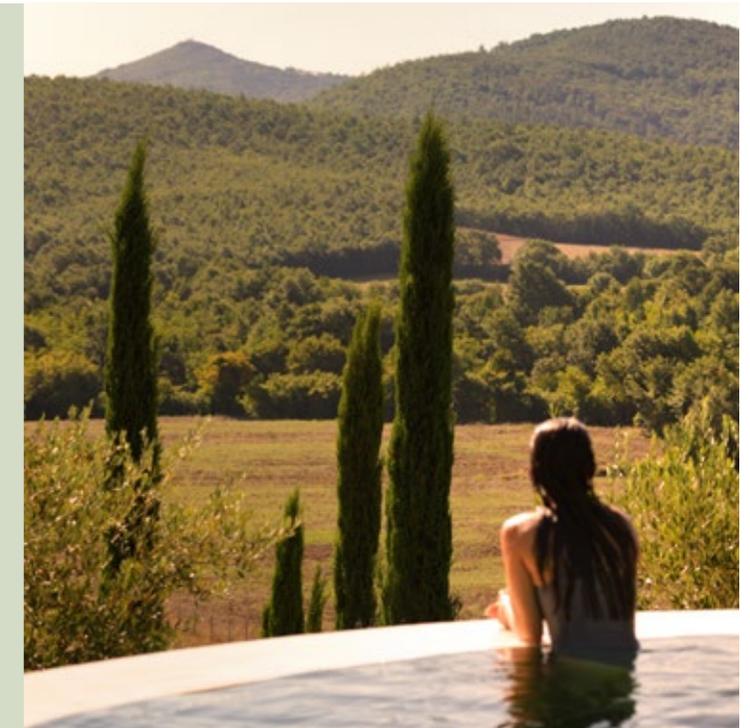

"For the Thottrups, it's about reflecting their unique vision of the future of sustainable luxury travel, achieving a genuinely distinctive balance of honoring the heritage of its surroundings, while also experimenting with innovative craftsmanship. Most of all, though, it's simply the place's aura that feels special. Yes, you might feel transported back to centuries past upon arrival, driving up through abundant borders of lavender humming with bees, or taking a stroll through the estate's forests and dipping your toe in the crystal clear waters of its spring water river. But while immersing yourself in these arcadian pleasures, it's the thoroughly modern & luxurious details that feel most striking. The Thottrups' vision harmoniously balances the past with the present for a result that just feels overwhelmingly, well, natural."

## RELAXING GARDENS

The courtyards, terraces and gardens at Borgo Santo Pietro offer havens of tranquility, with the drifting scent of roses and meditative flow of fountains. As you wander, each turn reveals a new micro-ambience to explore or relax in. Sink into a sun lounge by the freshwater infinity pool, lulled by the gentle buzz of conversation and sound of lapping water, or seek out peaceful solitude on a Moroccan day bed hidden amongst healing herbs in the spa garden, or simply curl up in good company with a glass of wine while drinking-in a sky-full of blazing stars overhead. Lose yourself on the richly scented rose-lined walk and you may stumble across an open-air art lesson taking place beside the lake or encounter our 'green thumbs' as they turn over the soil in the culinary garden, working to the rhythms of nature.

## SAPORIUM CHIUSDINO

A philosophy grounded in the principles of biodiversity and regenerative agriculture and the wish to share wondrously inventive cooking while respecting and highlighting the rhythm of nature and the authentic taste of our land.

Let our executive chef and his team - together with the master gardener, the forager, the cheesemaker, the baker, the fermentation specialist, the butcher, the restaurant manager, the sommelier - take you on a delightful journey and enjoy the art of Borgo Santo Pietro's soil-to-plate cuisine, celebrating the emotions triggered by the taste of our culinary gardens and estate produce.

Borgo Santo Pietro's cavernous cellar, situated below our thirteenth-century villa, plays host to nearly 1250 prestigious and boutique labels which line its walls. Years of 'walking the vineyards' and sampling various wines have guided us to build a wine list that is greatly inspired by Borgo's commitment to authentic production.

## TRATTORIA SULL'ALBERO

Designed around a large spreading oak tree with rustic interiors that evoke an elegant expansive tree house, our Trattoria Sull'Albero offers a laid-back lounge and dining ambience overlooking the fields and forests of the Valle Serena. The classic Tuscan menu of our 'farm to plate' fare showcases our organically cultivated ingredients sourced directly from our farm: freshly picked vegetables, artisanal cheeses, free-range eggs, in-house prosciutto ham and zero-kilometer sourced meat.

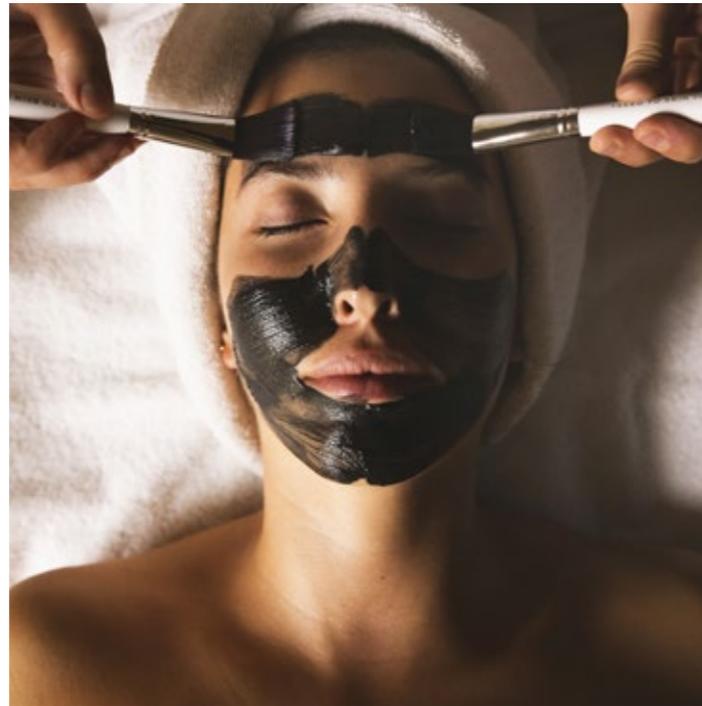

## WELLNESS & REJUVENATION

Borgo Santo Pietro's holistic spa is set amidst beautifully landscaped gardens and offers the ultimate tranquil healing environment. Resonating with its healing origins of medieval times, the Seed to Skin Tuscany Spa offers a discerning selection of relaxing, curing & beautifying spa treatments and rituals which ensures a total five sense immersion of health and well-being for the mind, the body and the spirit.

## OUR FARM & ESTATE

A philosophy of nurture via nature and a spirit of collaboration are tangibly felt at Borgo Santo Pietro, where a teamwork of farmers, culinary gardeners and chefs work together to bring the fruits of organic cultivation to the table.

Borgo's 300-acre organically cultivated estate includes market gardens, nut fields, herb gardens, extensive vineyards and forests, some of which house the estate's drove of pigs. Each day the farmers collect milk from Borgo's sheep which is then transformed into artisan cheese and yogurt at the on-site dairy. The farm includes free-range chickens, honey bees, alpacas and extensive vineyards and supplies both the inspiration and ingredients for the Michelin-starred restaurant Saporium Chiusdino, as well as the Trattoria Sull'Albero. The freshwater River Merse, famous throughout the region, runs through the outskirts of the estate.

## TIME WELL SPENT

Guests are invited to immerse themselves in the 'Borgo Santo Pietro experience' with cooking lessons at the Borgo Cooking School and artisan cheesemaking at the dairy, wine tastings, flower-arranging sessions with the in-house florist, and lakeside art lessons with the resident artist. Beyond Borgo Santo Pietro, the Concierge arranges activities ranging from exclusive private truffle hunts led by a professional truffle hunter, Vespa excursions and wine-tasting tours in the Chianti, Brunello and Bolgheri regions to breathtaking helicopter rides over the sunlit Tuscan countryside. Immerse yourself in the steady rhythm of daily life at Borgo, experience Tuscan culture hands-on and discover something new - about your surroundings, but perhaps also about yourself!

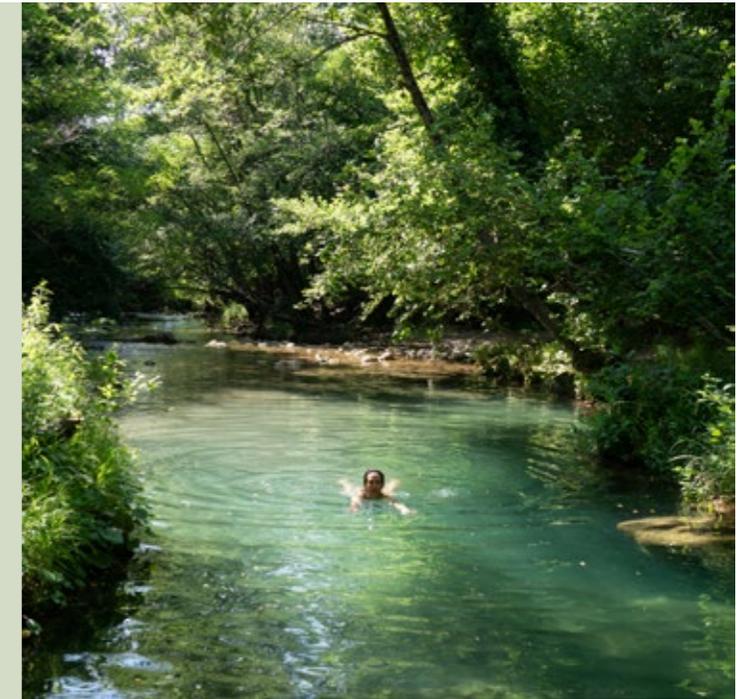

## INTO THE WILD

Beyond the gates of Borgo Santo Pietro the Tuscan landscape rolls out in a boundless vista of gently undulating hills sloping down to the Valle Serena, clad in forest and criss-crossed by the River Merse.

We invite our guests to go out on foot or with a bike and explore the wider horizons of the forest and fields in pure wilderness. Venture over to our dairy farm and out into the Valle Serena to hike forest trails, go for a wild swim, meander along the River Merse and scale the rises to enjoy panoramic views looking back towards Borgo Santo Pietro. Here you can free the mind and just be present to the beauty of nature as it is.
